

## Groundcovers

| Species                        | Common Name        | Exposure   | Height / Spread | Foliage        | Zone      | Description  |
|--------------------------------|--------------------|--|-----------------|----------------|-----------|--|
| <i>Ajuga reptans</i>           | Bugleweed          |  <br> | 8" x 18"        | Evergreen      | To - 38°C | Blue flower spikes, green, variegated and burgundy foliage varieties. Fast growing.  |
| <i>Arctostaphylos uva-ursa</i> | Kinnikinnick       |   | 6" x 24"        | Evergreen      | To - 35°C | Drought tolerant, native plant, erosion control, and slow growing. Pink/White flowers in spring, red berries and turning bronze in winter. |
| <i>Arenaria balearica</i>      | Corsican Sandwort  |    | 2" x 18"        | Evergreen      | To - 35°C | Tolerant of light foot traffic. Moss-like carpet. White flowers in late spring. Requires consistent moisture.                              |
| <i>Campanula carpatica</i>     | Bellflower         |    | 5" x 18"        | Semi-Evergreen | To - 45°C | Blue or white flowers, semi-evergreen, excellent edger.  |
| <i>Convallaria majalis</i>     | Lily of the Valley |    | 8" x 18"        | Deciduous      | To - 45°C | Slow to establish, fragrant blooms, dies down in winter  |
| <i>Cornus canadensis</i>       | Bunchberry         |    | 4" x 12"        | Semi-Evergreen | To - 45°C | Slow to establish, small dogwood type flowers, good fall colour, red berries summer to fall. Native and deer resistant.                    |
| <i>Cotoneaster dammeri</i>     | Cotoneaster        |    | 12" x 5'        | Evergreen      | To - 28°C | Drought tolerant, erosion control, fragrant white flowers in summer, red berries in fall. Deer resistant.                                  |
| <i>Epimedium grandiflorum</i>  | Bishop's Hat       |    | 12" x 18"       | Semi-Evergreen | To - 28°C | Nice fall foliage colours, delicate flowers in pink, red, yellow, and white in spring. Deer resistant.                                     |
| <i>Euonymus fortunei</i>       | Japanese Euonymous |   | 24" x 24"       | Evergreen      | To - 28°C | Drought tolerant, variegated green/gold foliage.   |
| <i>Fragaria chiloensis</i>     | Beach Strawberry   |    | 8" x 30"        | Semi-Evergreen | To - 28°C | Drought tolerant, erosion control, white flowers in spring. Deer resistant native. Light foot traffic.                                     |
| <i>Galium odoratum</i>         | Sweet Woodruff     |    | 12" x 36"       | Semi-Evergreen | To - 38°C | Fast growing, dies down in winter, tiny white  |

## Groundcovers

| Species                      | Common Name                  | Exposure   | Height / Spread | Foliage        | Zone      | Description   |
|------------------------------|------------------------------|--|-----------------|----------------|-----------|---|
|                              |                              |  |                 |                |           | flowers, fragrant leaves when dried. Deer resistant.  |
| <i>Gaultheria procumbens</i> | Wintergreen                  |    | 6" x 24"        | Evergreen      | To – 38°C | Moderate growing, white flowers followed by white berries in fall/winter. Deer resistant.   |
| <i>Gaultheria shallon</i>    | Salal                        |  <br> | 24" x 24"       | Evergreen      | To – 22°C | Drought tolerant, native plant, erosion control. Purple berries in fall. Deer resistant.  |
| <i>Genista pilosa</i>        | Vancouver Gold               |   | 12" x 30"       | Semi-Evergreen | To – 35°C | A UBC introduction, moderate growing, bright butter yellow blooms.  |
| <i>Herniaria glabra</i>      | Rupturewort                  |    | 2" x 16"        | Evergreen      | To – 35°C | Drought tolerant and tolerant of high foot traffic. Low, dense grower.  |
| <i>Hypericum calycinum</i>   | St. John's Wort              |    | 18" x 30"       | Semi-Evergreen | To – 35°C | Drought tolerant, fast growing, erosion control. Pretty bright yellow flowers.  |
| <i>Iberis sempervirens</i>   | Candytuft                    |    | 8-10" x 12-36"  | Evergreen      | To – 3°C  | Drought tolerant once established. Beautiful pure white flowers for several weeks in spring. Glossy, evergreen foliage. Performs best in well-drained soil. |
| <i>Isotoma fluvitilis</i>    | Blue (or White) Star Creeper |    | 2" x 12"        | Evergreen      | To – 22°C | Tolerant of moderate foot traffic, small soft blue prolific flowers in spring/summer. Fast growing.   |
| <i>Leptinella gruveri</i>    | Miniature Brass Buttons      |    | 1" x 8-12"      | Evergreen      | To - 7°C  | Great for planting in between flag stones in moist, shady areas. Very dense.  |
| <i>Leptinella squalida</i>   | New Zealand Brass Buttons    |    | 2" x 12"        | Evergreen      | To – 35°C | Tolerant of high foot traffic.  |
| <i>Lysimachia nummularia</i> | Creeping Jenny               |    | 2-4" x 18-24"   | Semi-Evergreen | To - 42°C | Very vigorous growing groundcover that is great as a trailer in container plantings.  |

## Groundcovers

| Species                | Common Name            | Exposure   | Height / Spread | Foliage        | Zone      | Description  |
|------------------------|------------------------|--|-----------------|----------------|-----------|--|
|                        |                        |  |                 |                |           | Available in either green or yellow leaves. Bright yellow flowers in summer.   |
| Mazus reptans          | Creeping Mazus         |    | 2-4" x 12-18"   | Evergreen      | To – 23°C | Very fast grower that forms a dense mat of green leaves with small lavender-mauve flowers in spring.   |
| Mentha requienii       | Corsican Mint          |  <br> | 2" x 12"        | Semi-Evergreen | To – 22°C | Extremely fragrant when touched, tolerant of light foot traffic, requires moist soil. Deer resistant.  |
| Oxalis oregana         | Wood Sorrel            |   | 4" x indef      | Deciduous      | To – 16°C | Moderate grower, dies down in winter, drought tolerant. Native and deer resistant.   |
| Pachysandra terminalis | Japanese Spurge        |    | 10" x 12"       | Evergreen      | To – 38°C | Fast growing, green or variegated foliage. Deer resistant. Slow to establish but tolerate poor soil.   |
| Pratia pendunculata    | Dark Blue Star Creeper |    | 2" x 2"         | Evergreen      | To – 22°C | Tolerant of moderate foot traffic, prolific small flowers in spring/summer.  |
| Rubus calycioides      | Creeping Bramble       |    | 2" x 2'         | Evergreen      | To - 17°C | Deep green, coarse leaves form a dense mat. Great for rock gardens or slope stabilization.   |
| Sagina subulata        | Irish or Scotch Moss   |    | 2" x 14"        | Evergreen      | To – 38°C | Tolerant of drought and high foot traffic, tiny white fragrant flowers. Deer resistant. Irish – green foliage and scotch – chartreuse foliage. |
| Sedum spp.             | Creeping stonecrop     |    | 8" x 18"        | Semi-Evergreen | To – 38°C | Fast growing, green, chartreuse, burgundy or variegated foliage. Drought tolerant with yellow, pink, or white flowers.                         |
| Soleirolia soleirolii  | Baby Tears             |    | 2" x 12"        | Semi-Evergreen | To – 6°C  | Tolerant of light foot traffic. Requires moist soil. Forms a thick mat with pinkish-white flowers in Summer.                                   |

## Groundcovers

| Species                  | Common Name         | Exposure  | Height / Spread | Foliage   | Zone      | Description   |
|--------------------------|---------------------|---|-----------------|-----------|-----------|---|
| Thymus 'Albus'           | White Thyme         |       | 3" x 14"        | Evergreen | To – 45°C | Tolerant of drought and high foot traffic, white flowers and deer resistant.  |
| Thymus 'Coccineus'       | Red Thyme           |       | 3" x 14"        | Evergreen | To – 35°C | Tolerant of drought and high foot traffic, red flowers and deer resistant.  |
| Thymus 'Pink Chintz'     | Pink Thyme          |       | 3" x 14"        | Evergreen | To – 45°C | Tolerant of drought and high foot traffic, pink flowers and deer resistant.   |
| Thymus 'Purple Carpet'   | Purple Thyme        |       | 3" x 14"        | Evergreen | To – 45°C | Tolerant of drought and high foot traffic, purple flowers and deer resistant.   |
| Thymus minus 'Elfin'     | Elfin Thyme         |       | 1" x 18"        | Evergreen | To – 45°C | Tolerant of drought and high foot traffic. Tiny leaves and lavender flowers. Deer resistant. Slow growing.                      |
| Thymus pseudolanuginosus | Woolly Thyme        |       | 3" x 14"        | Evergreen | To – 45°C | Tolerant of drought and high foot traffic, pink flowers, and deer resistant.  |
| Veronica 'Waterperry'    | Creeping Speedwell  |       | 1-2" x 10-12"   | Evergreen | To – 35°C | Great for rock gardens or edging along pathways. Small, soft-blue flowers in early summer.                                      |
| Veronica whitleyi        | Whitley's Speedwell |    | 4" x 18"        | Evergreen | To – 38°C | Drought tolerant and deer resistant. Soft silver mat like foliage. Bright blue flowers in late spring/summer. Moderate growing. |
| Vinca minor              | Periwinkle          |   | 8" x 30"        | Eergreen  | To – 35°C | Drought tolerant, fast growing, green or variegated foliage with white, blue or purple flowers.                                 |
