

Variety		Height	Characteristics
Ilex aquifolium	'Gold Coast'	4-6'	Very dense, compact growth habit. Dark green leaves are edged in bright yellow. Male form with no berries, but will pollinate other hollies.
Ilex aquifolium	'Hedgehog'	15-20'	One of the oldest known cultivars of holly, dark green and cream variegated leaves with interesting spines on the leaf surface.
Ilex aquifolium	'Myrtifolia'	6-8'	Great for containers or smaller gardens. Very slow growing, a nice, small dark green leafed variety.
Ilex aquifolium	'Nellie R. Stevens'	12-18'	This extremely vigorous growing holly is great for hedging. Female species- requires male to produce berries.
Ilex aquifolium	'Variegated'	15-20'	Pyramidal grower brightens winter gardens with showy red berries. Male English holly pollinizer needed for berry set.
Ilex cornuta	'Needlepoint'	15-20'	Tough, tall evergreen ideal for the shrub border or as hedge. Heat and drought tolerant.
Ilex meserveae	'Blue Prince'	12-15'	Great as a background plant or hedge. Good pollinator for female hollies.
Ilex meserveae	'Blue Princess'	10-15'	When pollinated by its male counterpart, 'Blue Prince,' it produces the bright red berries.
Ilex meserveae	'Castle Spire'	8-10'	Compact, pyramidal form. Dark green leaves with bright red berries. Use Castle Wall to pollinate.
Ilex meserveae	'Castle Wall'	5-8'	Great compact, pyramidal form. Great in place of Yew hedging. Use to pollinate Castle Spire.
Ilex verticillata	'Mr. Poppins'	3-5'	Because only one male plant is needed for fruit on up to 5 females, as long as it is within about 50' of the female plants.

Japanese Holly			
Variety		Height	Characteristics
Ilex crenata	'Snowflake'	6-8'	Tolerant of a wide variety of soils ranging from moist to dry and from sand to clay. Prefers light, moist, acidic soils with good drainage.
Ilex crenata	'Sky Pencil'	6-10'	A dense multi-stemmed evergreen shrub with a narrowly upright and columnar growth habit.
Osmanthus heterophyllus	Aureo-marginatus	4-5'	Beautifully variegated green and yellow foliage. Very slow growing.
Osmanthus heterophyllus	'Goshiki'	3-4'	New growth has a pinkish-orange variegation. As the shrub matures the variegation in leaves turns creamy yellow. Tough and hardy option to brighten up a shady spot.
Osmanthus heterophyllus	'Purpurea'	10-15'	Foliage is dark purple in young plants. Mature foliage is a purple-toned deep green. Great option for a compact hedge.
Osmanthus heterophyllus	'Sasaba'	3'	An interesting shrub with 'Bamboo Like' leaves. Tough and compact, its sharp and pointed leaves add different textures to a garden.
Osmanthus heterophyllus	'Variegata'	8-10'	Slow growing with densely set leaves edged in creamy white. Great for shady areas.
