Tips for Healthy Hostas

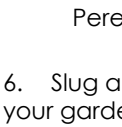

1. Ideal Location: Plant in partial to full shade; morning sun can be beneficial.

2. Soil: Use rich, well-draining soil with ample organic matter. Amend with Home & Garden Perennial Soil.

3. Watering: Keep soil consistently moist but not waterlogged; water deeply during dry periods.

4. Mulching: Apply a 2-3 inch layer of Home & Garden Aged Bark Mulch to retain moisture and suppress weeds.

5. Fertilizing: Fertilize once in spring with Home & Garden Annual & Perennial Controlled Release Fertilizer (14-14-16)

6. Slug and Snail Protection: To prevent these little pests from enjoying a feast in your garden put down Slug B Gon around plants.
